For the completion of these steps each Representative will be in the field 10 minutes before the timetable set for the start of the race. Even better would be if the list could be prepared in-game elsewhere before the game and delivered ready. Annex 6, in this respect, is a facsimile of how to prepare the list-match. For the direction of each race will be designated an arbitrator in writing to the Roman Referees Association.

His authority and the exercise of the powers conferred on him by the rules of the game, starting the moment arrives at the place where there is the field of play and stop when they will be removed permanently. Its main tasks will be:

Apply the rules of the game and take disciplinary action against athletes found guilty of offenses punishable by reprimand or expulsion.

Make a note of facts relating to race and give the organization a scoresheet that includes information on any sporting event, on any disciplinary measure taken against the athletes and / or managers of each Representative and any occurrence or accident before, during and after the race.

Stop, pause, or decree the end of the race in case of any event required by the Rules or any type of internal or external interference that does not allow the regular and / or smooth running of the game.

Stop the game if an athlete incurs an injury and make sure that it be brought by the health care of the case.

The arbitrator's decision on the facts of the game, even if they are "mistakes" are final.

#### **Article 12 - DISCIPLINARY MEASURES IN THE FIELD**

Fouls and unsportsmanlike conduct are punished with direct and indirect free kicks or penalty kick.

The only sole judge and deputy to take these decisions is the referee. He will also punish the bad behavior of players with cautions and dismissals.

The athlete who incurs a yellow card during the course of the game will stay on the pitch or continue to be available, if at that time held the position of "reserve".

The athlete should be cautioned twice in the same game, a second warning will be automatically ejected, even if at that time held the position of "reserve". He will definitely leave the playing field and this will result in automatic disqualification for the next game. If at that moment is "owner" to restore equal numerical his team will have to wait 2 minutes before you can put in place a new player, with zero of the timeout in case of realization of a network from one of the two competing teams. The second caution in the same game, and then the expulsion, will zero in the total count of cards against the athlete, the first yellow card received in the current game.

The athlete who incurs a direct expulsion must abandon the playing field and even in this case, if an owner to restore equal numbers, his team will have to wait 2 minutes before you can put in place a new player . This interval is reset to zero when one team achieves a network. The expulsion of an athlete may be direct, even if it covers at that time the role of "reserve", even when the athlete has been in the same game, previously warned. In this case the first "yellow card" will not cease in counting cards laden athlete. The direct ejection from the playing of an athlete's results in the automatic disqualification for one or more subsequent batches depending on the severity of the event for which has become the protagonist. The institutions responsible for taking such a decision will be a committee of the Organization in collaboration with the Clerk of the meeting. The expulsion or expulsion for a direct sum of admonitions in the same game does not reset to zero count of other "yellow cards" may have already been charged to a player.

A player will be suspended for the next game in the third admonition incur if distributed in more games but not consecutive.

The count of the cards will never be cleared until the end of the tournament except for the case of disqualification of office following the third yellow card in most games. We therefore recommend extreme caution (to managers to manage the rotation of the athletes and the athletes themselves to manage their behavior in the field) because incurring an athlete (for example) in the third yellow card in a semi-final will not be fielded in the final.

In case of serious or violent episodes during the matches, which hopefully will not happen ever, this Organization, please do not disturb the tournament, will not take half measures in taking disciplinary measures and will have no hesitation to exclude athletes from the tournament, which become share of serious or even to exclude the whole performance, especially if the characters were unpleasant episodes of the Executives or their companions.

In this case, the first "yellow" will not be zero in the count of tags laden athlete. The direct ejection from the playing of an athlete involves the automatic disqualification for one or more games later depending on the severity of the event for which it has become the protagonist. The organ responsible for making such a decision will be a committee of the Organization in collaboration with the Clerk of the meeting.

The direct ejection or expulsion for yellow card in the same game does not count will reset the other "yellow cards" may already be at the expense of a player.
